

1. PLATFORM OVERVIEW

Generation Marketing ERP is a complete marketing & project management system that helps manage calling operations, sales, projects and clients in a single platform. The system consists of web admin panels and an Android mobile app for calling agents.

Key Highlights

- ✓ Customer Calling & Lead Management
- ✓ Call Recording & Google Drive Storage
- ✓ Follow-up & Scheduling System
- ✓ Sales Pipeline & Meeting Management
- ✓ Project & Task Management
- ✓ Commission & Performance Tracking
- ✓ Real-time Reports & Analytics
- ✓ Role Based Access for All Departments

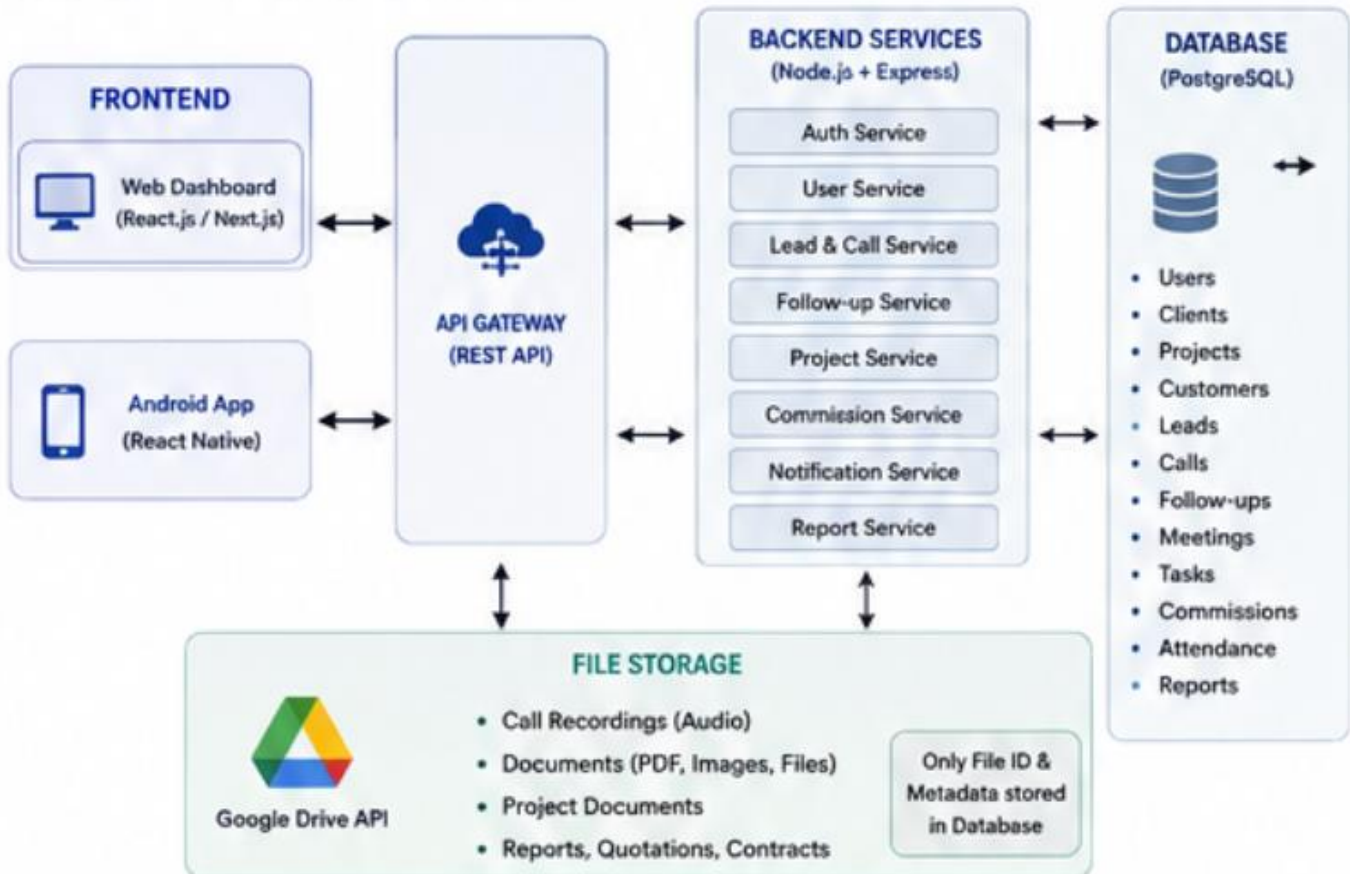

2. USER ROLES & DASHBOARDS

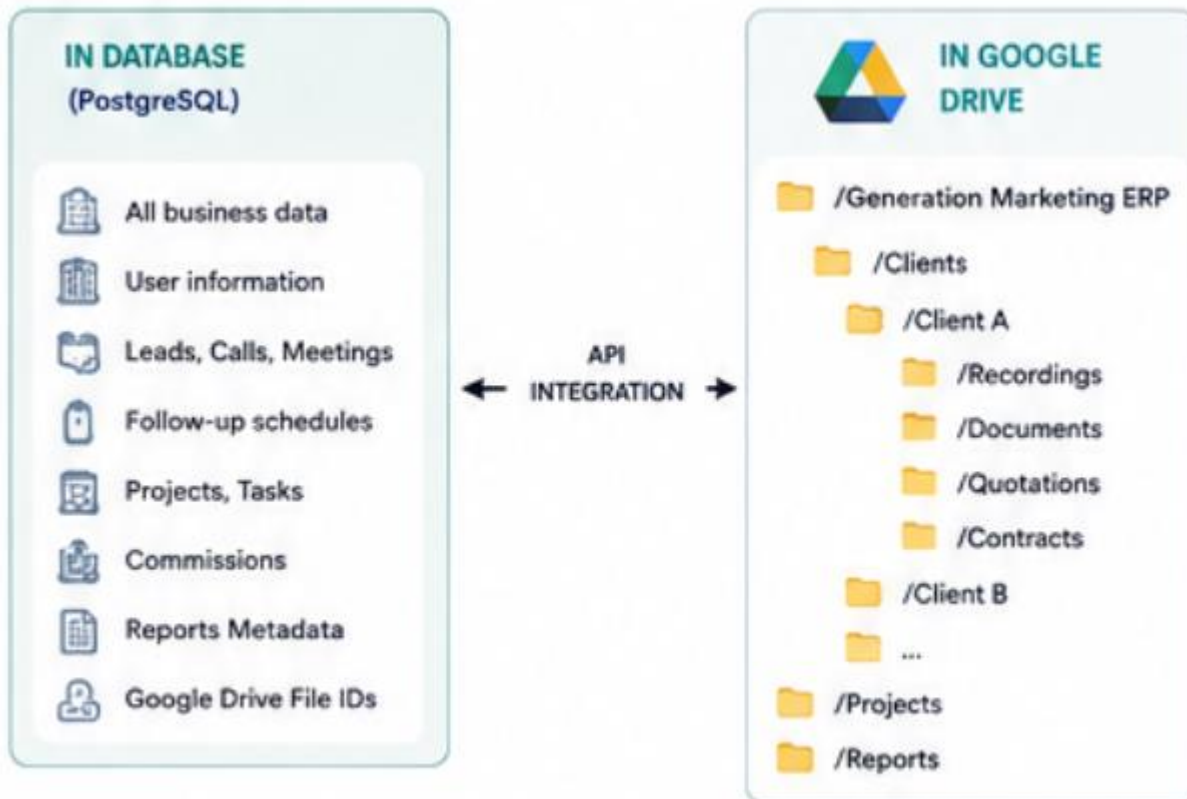

3. END TO END WORKFLOW

4. SYSTEM ARCHITECTURE

5. DATA STORAGE & GOOGLE DRIVE INTEGRATION

All files are uploaded to Google Drive. Database stores only File ID, URL, File Name, File Type, Size, Created Date, etc.

6. CONNECTIONS BETWEEN ROLES

Super Admin → All : Full control, creates clients, manages system

Admin → **Calling Agents** : Assigns projects, monitors calls

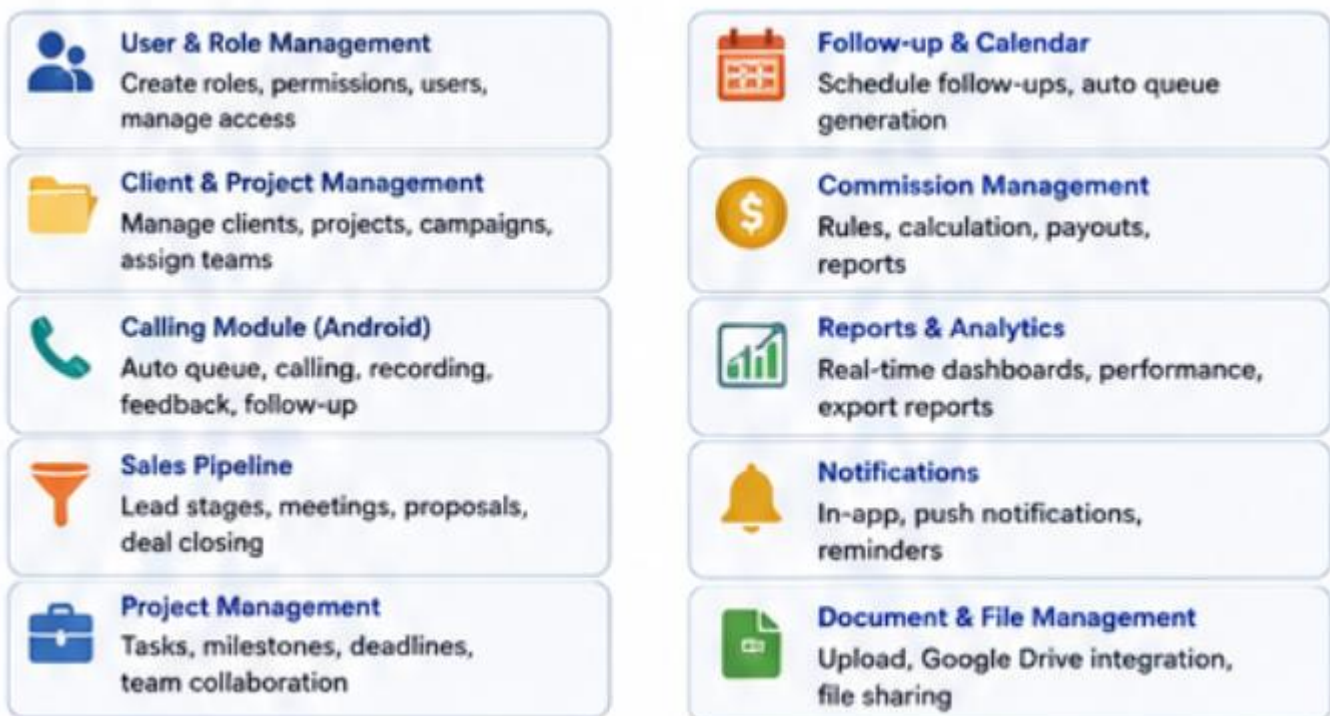

Calling Agents → **Sales Closing** : Send qualified leads

Sales Closing → **Project Manager** : Send won deals as projects

Project Manager → **Client** : Shares progress, documents, reports

Client → **Admin/Super Admin** : Payments, feedback, requirements
